

Ancient Architecture

Hook: We had an Ancient China Day where we experienced some of the everyday aspects of life in Ancient China.

History: We learnt about the Shang Dynasty and the achievements that they made under the ruling of their emperors.

French: We learnt how to describe our feelings and write this as an extended sentence.

Literacy: We learnt about different descriptive techniques we could use to build the tension in our writing and used these to create an effective description in our own narrative.

Music: In music we have been learning about music technology and have used apps on the ipads to help us to add layers to our music and use repetition to create an impact on the audience.

PE: In PE, we learnt about asymmetrical and symmetrical shapes in our gymnastics learning and we improved our hockey skills in our outdoor PE lessons.

End Goal: For our end goal, we created a museum to showcase our learning about Ancient China and the Shang Dynasty. We worked in our expert teams to create an exhibition with activities that would teach others about key aspects of the Shang Dynasty.
