

Superhero's Unite

Learning Opportunities

Hook: Starting School

Communication and Language: Story times, listening games and preparing for the nativity.

Personal and Social Development: Building on our friendships, talking about our feelings and our friend's and growing in confidence to perform. We talked about road safety and walked to deliver our letter to santa.

Physical Development: Dancing and performing for the nativity performance, our PE unit with working with other's where we practices moving safely with and around others.

Literacy: We looked at non-fiction texts on people who help us. We also wrote our very own books about a super hero and storyline we created and shared these with year 4.

Maths: In class each morning we practise counting lunch options and finding the corresponding digit and looking at one more or less. We made built superheroes and monsters counting how many legs, arms or eyes it had.

Understanding of the World: We have been talking about different celebrations people celebrate including Christmas, Diwali and Hanukah. We also looked at the weather as the cold and frost began to creep in.

Expressive Art and Design: We have used our imagination to create our own superhero capes. We also learned and practiced dances and songs to perform in our nativity.

End Goal: Cuddly reading with Year 4 where we showed our Superhero books and superhero capes. We also had a school nativity at the end of term.
